

LABC Environmental Policy

LABC is committed to minimising the damage caused to the environment through our working practices and conduct, promoting more environmentally and socially sustainable behaviour.

We want to:

- Operate in a socially responsible manner
- Reduce our carbon emissions companywide
- Recycle more within the workplace
- Print on recycled materials wherever possible
- Ensure that all our employees understand the importance of sustainability
- Help our members and clients to achieve sustainability in their work practices

To achieve this we pledge to:

- Educate and train employees on the environmental effects of their activities
- Take measures to improve technology and aim to become a paperless company
- Minimise waste and recycle materials
- Use paper from sustainable forestry wherever possible

Through these policies and actions we are protecting and preserving our surroundings today, and helping to provide future generations with sustainable homes and places to work, play and learn.
